Subject: Request for internship positions for the students of IT&CS

Dear Sir,

Pak–Austria Fachhochschule: Institute of Applied Sciences & Technology (PAF-IAST), Haripur, Khyber Pakhtunkhwa is a newly established provincially chartered public sector institute and is unique in its concept, approach, and methodology.

The PAF-IAST concept stems from the slogan "Skilling Pakistan" and envisages creating highly credible technical education infrastructure both at tertiary and hi-tech industry levels. PAF-IAST offers unique opportunities to Pakistani youth to study at an emerging center of excellence on their way to become leaders and entrepreneurs in various growth sectors. From the very outset of their academic career at this institute, they will be exposed to first-hand rewarding industry experience. This, in turn, will enable them to contribute significantly to the national economy and prosperity of the society at large.

Aligned with our Institute's vision, Department of IT and Computer Science is committed to provide quality education and prepare graduates who have entrepreneurial acumen and professional skills to provide adoptable solutions. For this purpose, our students need to take internship of 6 to 8 weeks each summer to complete the required workload at tertiary and hi-tech industry. The department of Department of IT and Computer Science would appreciate if you allowed our student, mentioned below, for a summer internship at your prestigious organization:

S.No.	Student Name	Father Name	PAF-IAST Registration No.
i.	Raja Sami Ullah Zaib	Chan Zaib	B22F0687CS108

We would be grateful if you please confirm their placements at your earliest convenience so that we can advise the students accordingly. The students will be available for internship between 10th July and 31th Aug 2025.

Looking forward to your kind cooperation.

Dr. Jamil Ahmad
Assistant Professor,

Students Advisor, Department of IT and Computer Science
